**RICHARD A. McCORMACK**

## What Are The Real Obstacles That Must Be Overcome To Implement A Lean Business System?

*Lean Machines: Learning From The Leaders Of The Next Industrial Revolution* provides you with a unique compilation of in-depth interviews with the country's most respected executives who have hands-on experience in implementing lean business systems.

The architects of Pratt & Whitney's Achieving Competitive Excellence program, the Danaher Business System, the Alcoa Production System and Freudenberg-NOK's six-step lean process share their experiences with you.

*Manufacturing News* Editor & Publisher Richard McCormack asks the country's leading lean experts exactly what is involved to successfully introduce a radical new business model into every aspect of their operation.
